

Whether you're studying at home or troubleshooting on site, Daikin University Online at YouTube is always there, 24/7. From fundamental HVAC training and concepts to product specific troubleshooting videos, a wide variety of information is available. Available videos are shown on the reverse side of this brochure. Additional videos will be posted over time.

Daikin Web-Based Training and Troubleshooting Videos on YouTube

To view Daikin's training and troubleshooting videos, scan the QR code to go to Daikin University's YouTube Channel.

Our continuing commitment to quality products may mean a change in specifications without notice.

These videos are available on Daikin University's YouTube Channel and on Daikin City and Partnerlink.

DVT-1	Evacuation Set Up	DVT-65	Key Points of VRV Refrigerant Piping Installation
DVT-2	How to get the VRV & SKY systems in recovery mode (VRV IV)	DVT-66	Examples of VRV Installation Problems (Indoor Units)
DVT-3	How to correctly set the emergency operations for individual compressors and in case of manifolded systems for Master & Slave units. (VRV IVX)	DVT-67	Soundproofing Plans for AC Equipment
DVT-4	How to set dip switch after replacing a Main Control PCB (A1P) in a VRV system and how to run a test operation	DVT-68	Refrigerant Pipe Selection for the VRV System (For USA)
DVT-6	How to test EEV coils (480, 2000, 3000 pulses)	DVT-69	Installation Flow and Precautions
DVT-8.1	How to use the megger to test insulation resistance on a Compressor	DVT-70	Key Points of Drain Piping Installation (VRV and Sky Air)
DVT-11	How to access Field settings on BRC1E73	DVT-71	Key Points for VRV Outdoor Unit Installation
DVT-15	Condensate Pump Wiring into a 4 Wire Single Split System	DVT-72	Indoor Unit Installation Points
DVT-16	How to put units in Test Operation. (VRV IV)	DVT-73	Inspections Prior to Test Run
DVT-16.1	How to put units in Test Operation. (VRV IV)	DVT-74	Overview of VRV Control Wiring and Wiring Precautions
DVT-17	Monitor Mode on VRV systems to check last error codes and error codes on retries.	DVT-75	Pre-installation Checks
DVT-20	Introduction to Air Conditioning	DVT-76	Field Setting With Outdoor Unit PCB
DVT-21	Primary Electrical Components of Air Conditioners	DVT-77	Procedures for Additional Refrigerant Charge (Model: Sky Air; Refrigerant: R410A)
DVT-22	The Primary Components of the Refrigeration Cycle Other than the Four Principle Components	DVT-78	Operating Instructions and Delivery - Sky Air Ceiling Mounted Cassette Type
DVT-23	How to use Gauge Manifolds	DVT-79	Malfunction Diagnosis using Centralized Control Devices
DVT-24	Fluorocarbons and the Earth's Environment	DVT-80	Malfunction Diagnosis using Outdoor Unit PCB
DVT-25	Introduction to p-h chart	DVT-81	Methods of Diagnosing Malfunction Codes: A0 (with related functions)
DVT-26	How to Use Megger Testers and Thermometers	DVT-82	Methods of Diagnosing Malfunction Codes: A3 and AF
DVT-27	Flaring Procedures	DVT-83	Methods of Diagnosing Malfunction Codes: A9 and E9
DVT-28	Procedures for Refrigerant Pipe Bending	DVT-84	Methods of Diagnosing Malfunction Codes: C4
DVT-29	Flare Connection and Handling of the Service Ports and Stop Valves	DVT-85	Methods of Diagnosing Malfunction Codes: E3 and JA
DVT-30	Vacuum Drying	DVT-86	Methods of Diagnosing Malfunction Codes: E4 and JC
DVT-31	Procedures for Refrigerant Recovery	DVT-87	Methods of Diagnosing Malfunction Codes: E6 and J2
DVT-32	Basics of Brazing Work	DVT-88	Methods of Diagnosing Malfunction Codes: L5, L8 and L9
DVT-33	Useful Points for On-site Brazing Work	DVT-89	Methods of Diagnosing Malfunction Codes: U4 and U9
DVT-34	How to Use Testers and Clamp Meters	DVT-90	Methods of Diagnosing Malfunction Codes: U5 and U8
DVT-35	Pump Down Procedures	DVT-91	How to Measure Test Run Data -Sky Air Edition-
DVT-36	Air Tightness Test	DVT-92	How to Measure Test Run Data -VRV Edition-
DVT-37	The Primary Safety Devices of the Refrigeration Cycle	DVT-93	Wired Remote Controller: How to Use "Inspection" Mode
DVT-38	How to read Psychrometric chart	DVT-94	Wired Remote Controller: How to Use the Service Mode
DVT-39	The Basics of Ventilation: Ventilation Methods and Required Ventilation Volume	DVT-95	Wired Remote Controller: Malfunction Codes
DVT-40	Air-cooled and Water-cooled Air Conditioners	DVT-96	Wireless Remote Controller How to Use the "Inspection" Mode
DVT-41	The Basics of Sound	DVT-97	Remote Control Wiring
DVT-42	Properties of new refrigerant & Key points for use	DVT-98	D-BACS (Centralized Controller)
DVT-43	Principles of Reluctance DC Motors	DVT-99	Local Setting With Remote Controller
DVT-44	Principles of Inverter Control	DVT-100	Key Points when Designing a D-BACS System
DVT-45	Why are Inverter ACs Energy Efficient?	DVT-101	Methods of Diagnosing Malfunction Codes U1, U3, and UF
DVT-46	P-h Chart and Coefficient of Performance	DVT-102	Overview of i-Touch Manager System
DVT-47	How to Select Air Conditioning Units - VRV III	DVT-103	Points for Brazing Work When Replacing Parts (1) - Compressors etc.
DVT-48	Classification of Air Conditioning Systems	DVT-104	Points for Brazing Work When Replacing Parts (2) - Repairing
DVT-49	Principles of Refrigeration	DVT-105	Functions of i-Touch Manager 1 - Monitoring and Operation
DVT-50	4 Components of Refrigeration Cycle & 4-way Valves	DVT-106	Functions of i-Touch Manager 2 - Automatic Control
DVT-51	Basic Knowledge of Heat and Pressure	DVT-107	Test Operation of i-Touch Manager
DVT-52	Standard Operation State	DVT-108	Field Setting VRV IV Outdoor Unit PCB
DVT-53	Impact of Various Changes on Operation State	DVT-109	Setting Display and Operation Methods of Outdoor Unit PCB Differences Between VRV III and VRV IV
DVT-54	Simple Heat Load Calculation	DVT-110	Content of Outdoor Unit PCB Differences between VRV III and VRV IV (General)
DVT-55	Refrigerant Types and Nomenclature	DVT-111	VRT Control
DVT-56	Daikin FIT- Transformer Kit Installation; System low voltage wiring; System Test	DVT-112	Examples of VRV IV Installation Problems (Drain Piping and Piping Clamping)
DVT-57	Phoenix Connector for Communicating Systems	DVT-113	How to Open the EEV on the Indoor and Outdoor Unit
DVT-58	Customer Satisfaction for Service Engineer	DVT-114	Additional Charge Mode on VRV Systems
DVT-59	Evolution of VRV	DVT-115	How to Count Indoor Units Connected to the Outdoor Unit
DVT-60	Setting of Acetylene Welders	DVT-116	VRV Outdoor Units Modes
DVT-61	The Basic Knowledge of Analog Relays	DVT-117	How to Test the Diode Bridge of an Inverter Board on VRV IV and VRV III
DVT-62	How to use Psychrometric charts - Mixture of Air	DVT-118	How to test power transistors on fan driver board
DVT-63	VRV System Features	DVT-119	How to test power transistors on VRV IV inverter board
DVT-64	Model Selection of Air Conditioners	DVT-120	Daikin One+ Thermostat Commissioning
		DVT-121	How to Put Daikin Multi-split HP unit in Forced Cooling Operation
